## HARDING ACCEPTS THE CHALLENGE

### WILSON'S LEAGUE OF NATIONS NOW GOES TO A POPULAR REFERENDUM

#### Hoover Backs Harding In a Strong Statement

(By Associated Press.)  
WASHINGTON, June 18.—Herbert Hoover issued a statement that he will support the republican candidates in the approaching election. In a statement issued, after breakfast with Harding, he characterized the greater part of the platform adopted at Chicago as "constructive and progressive."

"Nothing could be more disastrous," he continued "than that the development of several party organizations representing the completion of should come to this position we shall be entirely ruled by logrolling politicians or sterile political coalitions."

#### VICTORY DIVIDE SENDING ORE TO THE MILL

Bob Wilson, superintendent of the Victory Divide authorizes the statement that his company will continue shipping at the rate of 100 tons a week to the MacNamara mill. The ore is a high grade milling but it is preferred not to say anything about values at the present time. The tonnage is coming from the strike made two months ago when a body of rich ore was opened in a shoot reached from the bottom of a winze sunk 100 feet below the 200 level. After the orebody had been drifted on for some time it was deemed advisable to go deeper and the winze was sent down another 50 feet whence a crosscut was run to the ledge. Then a raise was put up and the oreshoot found to be as valuable as in the upper workings. It is from this raise that the ore is coming and the management is confident that the tonnage can be maintained. The company will sink to the level of the orebody and crosscut. This would cheapen the cost of mining and also enable the Victory to handle a greater tonnage.

The fact that the find was made in a series of cross ledges on the Jew claim close to the line of the Divide Consolidated may produce interesting developments and possibly require a lawsuit to determine the rights of both companies. A conflict with the Empire No. 4 claim is foreshadowed as an important fraction of that ground is claimed by the Victory by right of location. This contention is met by the Divide with the statement that they hold prior rights and that their holdings are absolutely safe from invasion.

DES MOINES, June 18.—A resolution providing for a national club house in Washington and a more general federation of women's clubs was submitted to the biennial convention today following the recommendation of Mrs. Josiah Evans Cowles, of Los Angeles, that national headquarters be retained at Washington.

#### NEW OREBODY IN ARROWHEAD

A rich lot of samples from the Arrowhead Mining company arrived in Tonopah last evening. They came chiefly from the new oreshoot encountered west of the shaft. The hole is down 245 feet, all in ore showing improvement both in character and value. The vein is wider than the shaft. The west drift on the 100 foot level and the intermediate level from the west raise have opened a shoot of ore assaying from \$287 to \$390 per ton from a streak six to eighteen inches wide. Shipments which were suspended during the heavy development have been resumed to the West End mill.

On the Arrowhead Con. the shaft is down 275 feet where they are cutting a station to begin crosscutting for the vein. Drifting along this vein on the 115 foot level a few days ago opened a highgrade shoot containing native silver.

West Arrowhead is down about 115 feet and sinking through the cross vein. The Extension is crosscutting to the north from the 150 station in the shaft and is out 20 feet. The Syndicate crosscut from the 200 level is out 25 feet to the north-east. Everybody in camp is working and the mines are looking well.

#### World Financier Dies After Short Illness

(By Associated Press.)  
NEW YORK, June 18.—George W. Perkins, financier, died this morning at Stamford Hall sanitarium, Stamford, Conn.

It became known June 17th that he had suffered a nervous breakdown, but members of the family did not intimate that at that time his life was in danger. He was taken to Stamford about ten days ago, his son announcing that the change was made to afford him a complete rest and seclusion from friends who sought his counsel prior to the Republican convention.

George Walbridge Perkins, for ten years a member of the firm of J. P. Morgan & Company, was reputed to have first suggested to and persuaded "big business" to adopt profit-sharing, insurance, service bonuses, sick benefits and old age pensions.

It was Perkins who was also said to have inaugurated the plan which permitted employees of the United States Steel Corporation and the International Harvester Company, in both of which he was at one time an executive, to purchase stock on installment and at less than market value on the assumption that "industrial justice is the most profitable of investments, that justice produces peace, peace promotes prosperity and that the workman's prosperity is necessary to the prosper-

challenge to submit the peace treaty to a referendum of the American people was accepted today by Senator Harding, republican presidential candidate.
